Endpoint: <http://localhost:5001/produtos/excluir/3>

The screenshot displays the Postman application interface. At the top, the URL bar shows the endpoint `http://localhost:5001/produtos/excluir/3` with a `DELETE` method selected. The `Body` tab is active, showing a JSON response. The response status is `200 OK` with a response time of `23 ms` and a size of `227 B`. The JSON body contains the following data:

```
{  "idproduto": 3,  "mensagem": "Sucesso -- excluido"}
```

The interface includes a sidebar on the left with navigation options like Collections, Environments, History, and Flows. The bottom status bar shows various tool icons and a taskbar with application icons.

Endpoint: <http://127.0.0.1:5001/produtos/editar/2>

A screenshot showing two application windows side-by-side. The left window is Postman, displaying a PUT request to "http://localhost:5001/produtos/editar/2" with a JSON body: {"idproduto": 2, "descricao": "Roupa", "precompra": 15, "precvenda": 60}. The response is a 200 OK status with a JSON body: {"mensagem": "Sucesso...editado"}. The right window is DB Browser for SQLite, showing the "produtos" table with columns: id, descricao, precompra, precvenda, and datacriacao. The table contains one row: id 2, descricao "Chinelos", precompra 10.0, precvenda 50.0, datacriacao 2026-10-06.

A screenshot of the DB Browser for SQLite application. The "produtos" table is selected, and its data is displayed in a table view. The table has five columns: id, descricao, precompra, precvenda, and datacriacao. The data row shows id 2, descricao "Roupa", precompra 15.0, precvenda 60.0, and datacriacao 2026-10-06.
